

ENVIRONMENTAL CHARTER

Since 1856, the Grand Hôtel d'Orléans has been a family-run establishment deeply attached to its history and its region.

Aware of our environmental and social responsibility, we have developed a sustainable approach that has been recognized with the **Green Key** certification, the leading international label for sustainable tourism, promoted in France by the Teragir association.

This label, renewed each year, certifies that our establishment complies with demanding criteria in terms of environmental practices, responsible management, and regional commitment. Beyond this recognition, our aim is to ensure that our actions are part of a process of continuous improvement.

Reduce, sort, and recycle
our waste

Reducing and recycling our
food waste through
methanisation

Limit waste at the source and
single-use products

Monitoring and analyzing our
consumption in order to
continuously improve our
environmental performance

Controlling and reducing our
water and energy consumption

Raise awareness among our
partners, suppliers, and
customers about our approach

Train and support our teams in
the continuous improvement
of our practices

Actively contribute to the
development of the local
economy

Encourage more responsible
modes of transportation

Prioritize responsible purchasing
and locally committed suppliers

Ensure a healthy environment
by using cleaning products that
are safe for people
and the environment

Promote local and seasonal
products by sourcing from
producers in our region

Through this charter, we affirm our commitment to take concrete action, within our means, alongside our teams, partners, and customers, to contribute to more responsible tourism.

We thank you for joining us in this endeavor.
